Notes on interior decorating with wood countertops:

This kitchen was built to entertain – the clients had a constant flow of friends and family and wanted a spacious design to entertain their guests. The wet bar area was just off to the side of the kitchen, being almost symmetrical to the main kitchen sink area. The designers of kitchenscapes wanted the bar area to flow with the rest of the kitchen but also stand out. The palladium metal bar counter was the perfect choice to complement the rest of the kitchen aesthetic and also act as a statement piece of the kitchen.
