Notes on interior decorating with wood countertops:

This kitchen was designed by Kitchenscapes, located in Breckenridge, CO. The wood kitchen countertop in this kitchen provides a feeling of warmth that makes guests feel welcome. The kitchen already consumes neutral, warm colors; however, the wood countertop and matching wood beam were necessary to complete the design. The wood countertop is complemented with two stools to create a seating area separate from the working areas of the kitchen. Learn about the Kitchenscapes designers [here](#).
