Notes on interior decorating with wood countertops:

"The client was looking to maximize counter space to accommodate multiple cooks in the kitchen as they like to entertain often. By bumping up the window seat to convert it into a bay window, we added a second sink and more prep space. Also, to avoid seams in the stone but also allow for a large island, an inverted an L-shaped slab of natural quartzite was paired with a custom L-shaped walnut with oil finish wood countertop."
