Notes on interior decorating with wood countertops:

The designers of this kitchen received a Kentucky Builders award for design excellence. The kitchen has an extraordinary attention to detail. The curved wood bar provides a warm place for guests to have a drink while dinner is prepared in the large chefs kitchen. Note the proximity of the wine storage refrigerator close to the bar. Sleek stainless steel and shiny chrome accents contrast nicely with the marble and wood countertops. This design is so inspirational for a chef desiring a gorgeous work space.
