Notes on interior decorating with wood countertops:

"This is a family that loves to cook and entertain so we incorporated their large commercial range flanked by perimeter quartz countertops, and a gorgeous walnut butcher block end grain countertop section. This is matched alongside by flat grain walnut pedestal table with built-in seating and storage. The walnut continues into a large walk-through pantry with a library ladder." – Splendid Home Design Photography by Kaunis Hetki Photographer Read the designers blog [here](#).
